**Connect Financial Software Solutions and Credit Union of Denver  
Partner for Online Banking Solution**

*Credit union signs a multi-year agreement for Internet Banking, Mobile Banking, Online Financial Management, and more.*

SALT LAKE CITY, UTAH – *March 22, 2011* - Connect Financial Software Solutions today announced a multi-year agreement with Credit Union of Denver. With more than 48,000 members and \$500 million in assets, CU Denver selected Connect for its consumer suite of Internet banking, Online Financial Management, and other services. Connect's hosted online banking solution will be tailored to fit the credit union's specific member and operating needs including adding significant third party integration and the launch of Mobile Banking.

Keith Cowling, CEO of CU Denver said "After an extensive review of several providers, we elected to partner with Connect FSS as they demonstrated superior levels of responsiveness, integration, greater flexibility in terms of customization, and the ability to significantly automate back-office workflow. With a limited physical footprint, the Online Channel is a key delivery area for us, and Connect demonstrated the best overall solution for our needs."

According to Grant Parry, President of Connect, "CU Denver was looking for a broader and more integrated product offering for its members, along with greater control and the ability to improve back-office productivity. They were also looking for a partner that

would work with them to develop specific areas of functionality. The ability to create specific application features was a key component of their decision, and we were able to support them. A new and feature-rich online channel is critical to the ongoing success of CU Denver, and we're pleased to help them achieve their business objectives.”

***About Connect Online Banking***

Connect Financial Software Solutions, LLC was formed to aid in the development, operations, and management of software solutions for credit unions. With a customer-centric philosophy and cooperative spirit, Connect's goal is to continuously provide credit unions with superior technology and at a reasonable price.

Connect's primary product is a leading-edge Online Banking solution. Available as a hosted or in-house solution, Connect Online Banking offers all the online banking features credit unions want, plus a variety of value-added features. Using Connect, members can open accounts online, receive account alerts, view promotions, utilize mobile online banking, pay bills, and access financial transactions directly from a Personal Financial Manager, such as, Quicken<sup>®</sup>, or Quickbooks<sup>®</sup>.
